All products are blended, bottled, and tested in our 4,000 sqft ISO 8 cleanroom in Thousand Oaks, CA. **\*PATENT PENDING**

**Is Nixamide™ the same as traditional nicotine?** When Nixamide™ is being used in a vaping device, has been specially formulated to deliver similar satisfaction, pleasure, and enjoyment as traditional tobacco products and nicotine e-cigarettes for adult consumers. This product does not fall under the TCA (Tobacco Control Act).

**What are some of the benefits of using Nixamide™?** Based on our studies, it is less toxic than nicotine and while also being less harmful to your cardiovascular system. This product does not show any trace elements of nicotine in your bloodstream or urine such Cotine and other trace elements.

**How do I use this product in my manufacturing?** Nixamide™ was created to fit into your current manufacturing process, seamlessly. We offer the same traditional strengths and blends that can fit right into your current recipes and mixing SOP's.

**Is Nixamide™ Safe?** Toxicology testing showed that Nixamide™ is less toxic than standard nicotine, either in combustible tobacco or in vapes. Please see the documents below. To draw a comparison, based on the WHO Chemical Safety Card for ingredients, Nixamide™ with active ingredient, Nicotinamide, lists exposure symptoms as "Cough". Traditional Nicotine is listed with inhalation exposure symptoms being "Burning sensation, nausea, vomiting, convulsions, abdominal pain, headache, sweating, etc.
